Work flow of BIS - PMJAY

Click on the link below to generate beneficiary card:

PMJAY - Beneficiary Portal (nha.gov.in) [https://beneficiary.nha.gov.in]

Step 1: Login to the Beneficiary Portal

Screenshot description: The PMJAY Beneficiary Portal login screen is shown. The portal is titled 'Ayushman Bharat - Swasthya Aapka, Saath Hamara' with National Health Authority branding. On the left side is a promotional banner in Hindi reading 'Ab Ayushman Card banana hua aur bhi aasan' (Now creating Ayushman Card has become even easier). Below the banner are logos for National Health Authority and Jan Arogya. The text states 'Ab laabharthi apne Ayushman Card ko Ayushman App ki sahayata se swayam bana sakte hain' (Now beneficiaries can create their own Ayushman Card with the help of the Ayushman App). A label reads '5 Lakh tak muft ilaaj' (Free treatment up to 5 lakhs). On the right side is the login form with the following details visible: Login as - Operator option is selected. A Captcha field shows '853fxn'. Registered Mobile No/User ID field is present. Authentication Mode is set to 'Aadhaar_OTP'. OTP has been sent to your Aadhaar registered mobile number *******5005. An OTP field shows '234244' with a RESEND OTP button. Captcha field shows 'rba733'. A LOGIN button is at the bottom.

1. Select as Operator
2. Provide captcha, Mobile number and OTP sent to your mobile number
3. Login

Step 2: Select the Scheme / Beneficiary Category

Screenshot description: The Ayushman Bharat Pradhan Mantri Jan Arogya Yojana Beneficiary Portal dashboard is displayed. The left sidebar shows navigation options: Search, Link Aadhaar, Download Card, Card Delivery. The main area shows filter fields: State (NAGALAND), Scheme dropdown, District (Select), Search By (Select). A dropdown is open showing three scheme options highlighted in circles: 'Government Employees', 'NFSA', and 'State Beneficiaries'. The dashboard area below shows 'Your Dashboard!' with a circular chart showing percentages (0.0%, 0.0%, 0.0%) and a legend for Pending, Rejected, and Delivered. On the right side of the dashboard, a summary box shows 'Total e-KYCs Done' with four values: Approved (0), Delivered (0), Pending (0), Rejected (0).

- Select Govt Employees - for Government employee and Pensioner
- Select NFSA for Ration card holders
- Select State Beneficiaries for CMHIS General category

Step 3: Search by Family ID

Screenshot description: The Ayushman Bharat Pradhan Mantri Jan Arogya Yojana Beneficiary Portal search screen is shown. Fields include: State (NAGALAND), Scheme (Government E...), District (KOHIMA), Search By - 'Family Id' is selected and circled in red. A text input labeled 'Family ID*' with placeholder 'Type here' is shown, also circled in red. The main instructional text reads: 'Select Family ID and Enter Family ID. Enter captcha and click on search.' The dashboard area below shows the same Your Dashboard layout with Approved, Pending, Rejected, and Delivered counts all showing 0.

Select Family ID and Enter Family ID

Enter captcha and click on search

Step 4: Initiate eKYC from Action Column

Screenshot description: The Beneficiary Portal search results screen is displayed after a search. The URL bar shows 'beneficiary.nha.gov.in/search'. The search filters show: Scheme (PMJAY), State (NAGALAND), Sub Scheme (NFSA), District (KOHIMA), Search By (Family Id). The Family Id field has a value (blurred). Captcha field shows 'nkgh66' with the solved value also shown. A notice reads: 'Name, Rural, Urban options are disabled to search beneficiary.' Below this, a results section shows '1 Family found'. The table header icons include: Download Card, eKYC, Link Aadhaar, and Renew. Column headers are: Sr.No, Name, Father/Spouse Name, Relation, Mobile No, eKYC Status, Card Status, Action. The family record shows: Family ID - 131000355173 | Source - NFSA | Address - HNO 74 Kohima Jakhama Sweba Viswema NAGALAND 797005. Row 1 shows: Name (blurred, F), Relation (SELF), Mobile No (XXXXXX1865), eKYC Status (Identified), Card Status (Not-Generated). In the Action column, the eKYC icon is circled in red.

In action tab, click on eKYC icon to collect eKYC for the beneficiary

Step 5: Authenticate the Beneficiary

Screenshot description: The e-KYC authentication page is displayed. Navigation breadcrumb shows 'Home > e-KYC'. The top bar shows the beneficiary name 'SMTI. NEIKIETSONUO' and tabs: Search, e-KYC (active), Link Aadhaar, Add Family Member, Download Card, Card Delivery. The time spent by the user shows '00 Min'. The beneficiary profile section shows: Age 33 Yr, Gender F, Source Type visible. Aadhaar Status shows 'UNIDENTIFIED' in a red box. The e-KYC section below shows three radio button options: Aadhaar OTP (selected), Finger Print, IRIS Scan. An Aadhaar Number field is present with a VERIFY button below it. A REFRESH button is shown in the center. A BACK button is at the bottom right.

There are three options to authenticate:

- Aadhaar OTP
- Finger Print
- IRIS Scan

Provide Aadhaar number and click on VERIFY

Step 6: Give Consent

Screenshot description: The Consent page is displayed with the header 'Consent' on a white panel. The full consent text in English reads as follows:

I hereby declare that I am voluntarily sharing my identity information / Aadhaar Number / Virtual ID issued by UIDAI with National Health Authority (NHA) for the purpose of creating and linking my PM-JAY ID with Health ID. I understand that upon successfully creation and linking both cards, I stand to avail benefits under Ayushman Bharat Pradhan Mantri Jan Arogya Yojana (AB-PMJAY) and related benefits under Ayushman Bharat Digital Mission. I also authorize NHA to use my Aadhaar number / Virtual ID for performing Aadhaar based authentication with UIDAI and store my e-KYC information as per the provisions of Aadhaar Act, 2016 read with Regulations and Amendments as may be updated from time to time only for the above purpose. I understand that UIDAI will share my e-KYC (Name, Address, Age, DoB, Gender and Photograph) details with NHA on successful authentication. I also understand that my e-KYC information excluding Aadhaar number / Virtual ID / UID Token will be made available to empanelled hospitals, insurers, insurance agencies (ISAs), State Health Agencies (SHA) and entities (such as Healthcare Information Providers (HIPs), Healthcare Information Users (HIUs), Consent Managers, Healthcare Repository Providers (HRPs), and Health Lockers as specified under National Digital Health Ecosystem (NDHE)), post my consent and authentication. Further, I give my consent to use my e-KYC details for following: Enrollment into the AB-PMJAY Scheme (ABHA/A Golden record generation). Availing benefits under AB-PMJAY and ABDM scheme at any of the empanelled hospital. The purpose of Data Analytics by NHA. Enabling the healthcare services across NDHE. Verifying eligibility under other schemes of Government of India. I have been duly informed about the option of creation of AB-PMJAY ID and ABHA No. without using my Aadhaar details. However, I have consciously taken the decision to use Aadhaar number (UID) / Virtual ID (VID) for the purpose of availing benefits under AB-PMJAY and ABDM. I also understand that my Aadhaar number may be used to verify my information available with SECC, RSBY and other databases as required by the scheme. I reserve the right to revoke the given consent at any point of time from National Health Authority.

The same consent text also appears in Hindi below the English version.

A checkbox at the bottom reads: 'Yes I wish to create/link my ABHA with PMJAY ID.'

Below the consent text are two buttons: ALLOW and DENY.

Click on check box to give consent and click on ALLOW

Step 7: Provide OTP for Authentication

Screenshot description: The authentication page now shows two OTP input fields side by side after the Aadhaar number has been entered and verified. The beneficiary details section at the

top shows: Aadhaar Number/Virtual ID (XXXX XXXX 5892), Family ID (131000232899), Address (C-D 281 KOHIMA KOHIMA SADA...), Member ID (13100023289901), Mobile Number (8014188790), Card Status (Approved). A note reads: 'Please select the cards to download.' The Authentication section shows: Authentication by - the beneficiary name is selected from a dropdown. Three options: Aadhaar OTP (selected), Finger Print, IRIS Scan. Aadhaar Number field shows XXXX XXXX 5892 with a green checkmark. Two OTP fields are shown: 'Beneficiary's Aadhaar OTP' with placeholder 'Type Here' and a RESEND OTP button with note 'Click on Resend OTP after 176sec'; 'Operator's Mobile OTP' with placeholder 'Type Here' and note 'Click on Resend OTP after 176sec'. A REFRESH button is in the center.

Provide OTP sent to your mobile number or put your finger on the finger device.

Provide OTP sent to Operator mobile number and beneficiary Mobile number

Step 8: Capture Beneficiary Photo and Check Match Score

Screenshot description: The additional information section of the e-KYC page is displayed. The beneficiary profile card at the top shows: Source Type NFSA, Aadhaar Status - IDENTIFIED (shown in green). Address: 167(C) KOHIMA CHIEPHOBOZOU NERHE MODEL NAGALAND 797105. Member ID: 13100022366601. The 'Additional Information' section shows two panels side by side: Left panel - 'Photograph' section with a 'Capture Photo*' label and a small captured photo of a woman is visible. Right panel - 'Matching Score' showing a circular gauge indicating 92.00% Match (shown in green). Below the panels, an informational note reads: 'Match score calculated by using Aadhaar eKYC data and the source information is greater than 80%. This eKYC request will be auto approved and card can be downloaded after successful submission.' Below that, a question: 'Do you have mobile number?* Yes / No' (Yes is selected). Fields for Mobile No, Year of birth, Relation with Family Head, and Pincode are shown at the bottom.

Capture Beneficiary photo and upload and check the % of the match score

Match score calculated by using Aadhaar eKYC data and the source information is greater than 80%. This eKYC request will be auto approved and card can be downloaded after successful submission.

Step 9: Fill Mandatory Fields and Submit

Screenshot description: The form continuation page shows the following filled fields: 'Do you have mobile number?* Yes' is selected. Mobile No: 8131898948 (with green checkmark and note 'OTP has been sent to your mobile number *******8948'). OTP: 789572 (with green checkmark). Year of birth: 1991. Relation with Family Head: SELF. Pincode: 797001. State: NAGALAND. District: KOHIMA. Rural or Urban: Rural. Sub District: CHIEPHOBOZOU. Village: Nerhema Model. An instructional note at the bottom reads: 'Match score calculated by using Aadhaar eKYC data and the source information is greater than 80%. This eKYC request will be auto approved and card can be downloaded after successful submission.' Two buttons are shown at the bottom: BACK and SUBMIT.

Provide beneficiary mobile number and OTP received

Fill all the mandatory fields as provided

Click on Submit and application will be sent to ISA/SHA Approval

On successful submission of the application, Reference number message will appear. Record the reference number for future references.

Step 10: Download the Card After Approval

Screenshot description: The Beneficiary Portal search results page is shown after an approved application. Search filters show: State (NAGALAND), Scheme (PMJAY), District (MOKOKCHUNG), Search By (Family Id), Family ID field shows a partial number ending in '29'. The search result shows '1 Family found'. Table headers: Sr.No, Name, Father/Spouse Name, Relation, Mobile No, eKYC Status, Card Status, Action. The family record shows: Family ID - 24610111929 | Source - GE | Address - MOKOKCHUNG, NAGALAND. Row 1: Name - SHRI. PANGS... M) 1978, Father/Spouse Name - Rongsennangzuk, Mobile No - 81...96, eKYC Status - Verified (shown in green), Card Status - Approved (shown in green), Action column shows a download arrow icon which is circled in red.

Once the application was approved, in action tab, click on download option to download the card

Step 11: Select Card and Verify Aadhaar to Download

Screenshot description: The Download Card page is displayed. The navigation tabs at the top show: Search, Redo e-KYC, Link Aadhaar, Add Family Member, Download Card (active/highlighted in blue), Card Delivery. The beneficiary profile card shows a checkbox (checked/selected) on the left, with a photo. Details shown: Aadhaar Number/Virtual ID - XXXX XXXX 5892, Family ID - 131000232899, Address - C-D 281 KOHIMA KOHIMA SADA..., Member ID - 13100023289901, Mobile Number - 8014188790, Card Status - Approved. Beneficiary name - NEIPHREHUNUO KIRE, 56 Yr, F, SELF, Source Type: NFSA. A note reads: 'Please select the cards to download.' The Authentication section shows: Authentication by - NEIPHREHUNUO KIRE (selected from dropdown). Three radio options: Aadhaar OTP (selected), Finger Print, IRIS Scan. Aadhaar Number field shows XXXX XXXX 5892 with a VERIFY button. A REFRESH button is shown. The checkbox on the card is circled.

Click check box against whom the card to be downloaded

Provide Aadhaar number and verify (1 member of the family can download the entire family members)

Step 12: Give Consent for Download

Screenshot description: The consent page is displayed again during the card download process. The same full English and Hindi consent text as described in Step 6 is shown. The checkbox at the bottom reads: 'Yes I wish to create/link my ABHA with PMJAY ID.' Two buttons - ALLOW and DENY - are visible at the bottom right.

Click check box for consent and click on ALLOW

Step 13: Provide OTP for Download Authentication

Screenshot description: The authentication page for card download is shown. Beneficiary details at top show: Aadhaar Number/Virtual ID - XXXX XXXX 5892, Family ID - 131000...2899, Address - C-D 281 KOHIMA KOHIMA SADA..., Member ID - ...01, Mobile Number - 801...790, Card Status - Approved. Source Type: NFSA. The note reads 'Please select the cards to download.' The Authentication section shows: Authentication by - name ending in KIRE (selected). Three radio buttons: Aadhaar OTP (selected), Finger Print, IRIS Scan. Aadhaar Number field shows XXXX XXXX 5892 with a green checkmark. Note says 'OTP has been sent to the registered mobile number ********8790'. Two OTP fields side by side: 'Beneficiary's Aadhaar OTP' with placeholder 'Type Here' and 'RESEND OTP' button with note 'Click on Resend OTP after 176sec'; 'Operator's Mobile OTP' with placeholder 'Type Here' and note 'Click on Resend OTP after 176sec'. A REFRESH button is in the center.

Select Aadhaar OTP, Finger Print or IRIS and provide Aadhaar number

Provide OTP sent to the beneficiary's mobile and operator's number

Step 14: Final Download of the Card

Screenshot description: The final Card View / Download page is displayed. The beneficiary profile details show: Aadhaar Number/Virtual ID - XXXX XXXX 5892, Family ID - ...232899, Address - C-D 281 KOHIMA KOHIMA SADA..., Member ID - ...289901, Mobile Number - ...0, Card Status - Approved. Name ends in KIRE, 56 Yr, F, SELF, Source Type: NFSA. A note reads 'Please select the cards to download.' The Authentication section shows: 'Authenticated by [name ending in] E for downloading cards.' The Card View section shows a thumbnail preview of an Ayushman Bharat card (the card displays a photo, name, and scheme details, though specific personal data is partially obscured). The instructional text reads: 'Click on Download to download the card.' A DOWNLOAD button is visible at the bottom right, circled in red.

Click on Download to download the card

TMS User Manual for Hospitals

Ministry of Health and Family Welfare

Hospital User Manual for Transaction Management System

Abbreviations

TERMS	DEFINITION
PMAM / AM	Pradhan Mantri Arogya Mitra / Arogya Mitra
MEDCO	Medical Coordinator
PEX	Pre-Authorization Executive
PPD	Pre-Authorization Panel Doctor
CEX	Claim Executive
CPD	Claim Panel Doctor
AO	Account Officer
SHA	State Health Agency

TMS Workflow

TMS Workflow explains all roles and responsibility involved in this process as mentioned below.

Workflow Diagram Description: The TMS workflow is a flowchart showing the end-to-end process from patient arrival to claim settlement. The flow is as follows:

4. Beneficiary Approaches Empanelled Hospital
5. Beneficiary Registration in Hospital by PMAM / Medco
6. Preliminary diagnosis
7. Categorize Patient as OP (Out Patient) or IP (In Patient)

For Out Patient:

- Case marked as OP → Patient discharged

For In Patient:

- Preauth Initiation by Medco / PMAM
- Case Auto approved for listed procedures OR Case requiring Manual approval from PPD
- Results: Rejected / Approved / Pending for clarification
- If Approved: Treatment Provided and Case Updated by PMAM / Medco
- Discharge Update by PMAM / Medco → Patient discharged
- Claim Initiation by PMAM / Medco

- Claim Verified by Claim Executive
- Claim Processing by CPD Trust / Insurance
- Results: Rejected / Approved / Pending for clarification
- If Approved: Accounts Officer Approval → SHA Approval (if mandated) → Claim Settled with Hospital

Preauthorization Workflow

Preauthorization Workflow explains all roles and responsibility involved in this process as mentioned below.

Workflow Diagram Description: The Preauthorization Process flowchart branches into two main tracks from the top:

Surgical Cases track:

- Auto-Approval branch: proceeds directly to Surgery Updation by Hospital Coordinator, then Discharge Updation by Hospital Coordinator
- Without Auto-Approval branch: goes to three possible outcomes: Rejection → Final Rejection; Approve → Surgery Updation by Hospital Coordinator → Discharge Updation; Pending → Hospital Coordinator (pending clarification)

Medical Cases track:

- 1st time: Auto-Approval → proceeds to outcome
- Extension of Stay: Enhancement → three outcomes: Rejection → Final Rejection; Approve → proceed; Pending → Hospital Coordinator

Note: Hospital Co-Ordinator means it could be MEDCO and/or PMAM.

Menus and Sub Menus

Below are the Menus and Sub Menus involved in TMS Application.

S.No	Menus	Sub-Menus
1	Patient	Register Patient Register Patient View Telephonic Registered patients Out patient Registered cases
2	Case Search	NA

Patient Registration

Any patient wants to take the services through this scheme he should be registered either through Direct or Telephonic Registration (In case of Emergency).

8. Direct Registration
9. Telephonic Registration

Direct Registration
Arogya Mitra /Medco (A person appointed by the insurance who is present at the hospital for registering Pradhan Mantri Jan Arogya Yojana (PM-JAY) patients into the scheme) for entering the Patient details, if patient visits the hospital directly.

Telephonic Registration
In case of an emergency, when a surgery needs to be done immediately (emergency cases) telephonic approval is taken from concerned Approvers. Later the Arogya Mitra will register the case into our system.

1) Direct Registration
Arogya Mitra / Medco should be able to register the Patient by entering the Patient details, if patient visits the hospital directly.

Login to the operations worklist by giving Arogya Mitra /Medco credentials and click on Login button to initiate cases for the registration of the patient as shown in the screen shot.

Screenshot description: The Ayushman Bharat TMS login screen is displayed. The header shows: 'AYUSHMAN BHARAT - Swasthya Aapka, Saath Hamara' along with Ministry of Health & Family Welfare, Government of India logo on the left and the National Health Agency logo on the right. The login form shows: User Name: CHH0034 (with a green checkmark), Password: hidden (with a green checkmark), and two buttons: Login and Reset.

Dashboard appears first which has all the statistical data while Arogya Mitra logs in.

Screenshot description: The Ayushman Bharat TMS Dashboard is displayed after login. At the top are four summary tiles: Patients Registered - 2 Today; Waiting for Treatment - 0 Total; Claims to be settled - 10 Total; On Bed Patients - 1 Total.

Below the tiles is a 'Hospital Statistics' section with a table showing two sets of columns - Overall and Last 24 Hrs - for the following metrics:

Metric	Overall	Last 24 Hrs
Patients Registered	5	1
Out Patients	0	0
In Patients	5	1
Preauthorizations	1	0
Amount Preauthorized	Rs.36500	Rs.0
Surgeries/Therapies Done	1	0
Surgeries/Therapies Done Amount	Rs.0	Rs.0
Death Cases	0	0
Claim Paid Amount	Rs.255500	Rs.0

Below the Hospital Statistics is a 'Preauthorizations' section showing pending preauthorizations split into less than 12 hours and greater than 12 hours for TRUST and HOSPITAL categories, all showing 0 count and Rs.0 amount.

A 'Claims' section shows pending claims split into less than 7 days and greater than 7 days. TRUST shows 10 claims pending with Rs.255500 amount within 7 days. HOSPITAL shows 0 and Rs.0 for both columns.

A 'Key Performance Indicators' section shows two side-by-side tables for Preauths Indicators and Claims Indicators, each with columns: Financial Year, Preceeding Month, Current Month, Previous Day. The indicators tracked include: No. of Preauths/Claims Rejected, Amount of Rejected Preauths/Claims, No. of Preauths/Claims Pending, Amount of Pending Preauths/Claims, No. of Preauths/Claims Approved, Amount of Preauths/Claims Approved, Total Preauth/Claim Cases, % of Rejected and Pending against Total, % of Approved against

Total. All values shown are 0 except Total Claims which shows 10 under Financial Year and 10 under Current Month.

Retrieve the beneficiary details by giving State, id type (AB PM-JAY ID, Mobile Number, Aadhar card, Ration card, and any other card), id number and New born baby which is a non-mandatory field as shown in the screen shot.

Screenshot description: The Patient Registration screen is shown with the Ayushman Bharat portal. The left sidebar shows Patients menu expanded with: Register Patient, Registered Patients View (count 3), Telephonic Registered Patients (count 2), OP Registered Cases (count 3). Below are Cases Search, Grievance, Preauth, and Claims menu items. The main panel shows 'Patient Registration' form with: State - CHHATTISGARH, ID Type - AB-NHPM ID, ID Number - 25TU029, New Born Baby checkbox. Retrieve and Reset buttons are present.

Click on Proceed button by verifying the beneficiary details (In case of family ID cards the following page appears in order to select one among them) as shown in the screen shot.

Screenshot description: A 'Family Details' popup/table is shown after entering the ID and clicking Retrieve. The table has columns: Check, Name, Year of Birth, Gender, Household Id, AB-NHPM Card No, State, Address. Three family members are listed: test spouse2 (2000, Female, FA3QJ9, NXT80CE, Chhattisgarh, test grand 1212), azya (1927, Male, Z21200803260000080100033, NGH2FJS, Chhattisgarh, Suresh Singh 456456 6767), RAMESH (1968, Male, Z21200301426000023000081, WVS0L93, Chhattisgarh, xyz 4564 5848). Proceed and Close buttons are at the bottom right.

Click on Register button by providing the patient details and Action Type as Register as shown in the screen shot.

Screenshot description: The Patient Registration form is populated with beneficiary details after selection. The form shows: State - CHHATTISGARH, ID Type - AB-NHPM ID, ID Number - Z5TU029, New Born Baby checkbox. A 'Registration Details' section shows: Name - Bhanu, Gender - Male/Female radio buttons (Female selected), Contact No - 8890000085, Year Of Birth - 1988, date fields for DD/M/M/D/D format. Card Address section shows: Address - S/O ABC 23432 5242, State - CHHATTISGARH, District - MAHASAMUND, Block/ULB - Block, Block - MAHASAMUND, Village dropdown - select, City/Town - mahasamund, Pin code - 402445. Hospital Details shows: Hospital - City Hospital (dropdown), Date and Time of Registration - 13/09/2018 16:09:25 PM. A note reads 'All fields marked with * are mandatory'. Action Type is set to Register with a Register button and Capture Patients Biometric button.

Click on OK button for registering the patient as shown in the screen shot.

Screenshot description: A confirmation dialog appears over the Patient Registration screen asking 'Do you want to Register Patient?' with OK and Cancel buttons. The patient details form is visible in the background with: ID Type - Aadhar ID, Patient Details section showing Name, Gender (Male/Female), Marital Status, Date Of Birth - 27-02-1980, Age fields, Relationship - Self, Contact No, Slab - General Ward. A Card Address section is partially visible below.

Unique patient id will be generated on clicking OK button after registering the patient in PM-JAY.

Screenshot description: A success message is displayed: 'Patient Registered Successfully with Patient ID: 2793' with OK and Print buttons.

In registered patient view, registered patients will be displayed as shown in the screen shot.

Screenshot description: The 'Registered Patients View' screen shows a search form and results table. Search fields include: Patient No, Patient Name, Health Card No, State (--select--), District (--select--), From Date, To Date with Search and Reset buttons. Results section shows 'Displaying Records: 0-1 Total no of Records: 1'. The table has columns: S.No, Patient No, Patient Name, Employee/Pensioner Card No, District, Gender, Age, Registration Date, Action. One record is shown: 1, 2793, Priya, NHPS2344/01, HYDERABAD, Female, 38, 20/07/2018 11:26:01 AM. An action icon is visible.

Below page will be displayed by clicking patient id as shown in the screen shot. Arogya Mitra /Medco can also use print button to get the print of the following details.

Screenshot description: The Patient Registration detail view is shown with: Health Card No: NHPS2344/01, Patient No: 2793. Patient Details section: Name - Priya, Gender - Female, Date Of Birth - 27.02.1980, Age - 38Y 4M 24D, Relationship - Self, Slab - General Ward, Contact No - 7897897897. A 'Photo Not Available' placeholder is shown. Card Address section: House No - 5464, Street - Priya, State - TELANGANA, District - HYDERABAD, Block/ULB - AMBERPET, City/Town/Village - Amberpet, Pin code - 453453. Communication Address section shows the same details as above. Case Details section shows: Registered Hospital - CONTINENTAL HOSPITALS, Date and Time of Registration - 20/07/2018 11:26:01 AM.

2) Telephonic Registration

In case of an emergency, when a surgery needs to be done immediately (emergency cases) Pre-Auth Executive should be able to enter the Patient details through telephone. Later the Arogya Mitra will register the case to PM-JAY.

Login to the operations worklist by giving Pre-auth Executive credentials and click on Login button to initiate cases for the registration of the patient through telephone as shown in the screen shot.

Screenshot description: The Ayushman Bharat TMS login screen is displayed with User Name: CHH0013 and Password hidden (with green checkmarks). Login and Reset buttons are shown.

Pre-Auth Executive should be able to submit details by providing the patient details through telephone as shown in the screen shot.

Screenshot description: The 'Telephonic Patient Registration' form is displayed. The left sidebar shows: Patients menu (with Telephonic Registration and Telephonic Registered Patients options), Cases Search, and Preauth. The main panel shows a comprehensive Telephonic

Patient Registration form with sections: ID Type (dropdown) and ID Number fields, New Born Baby checkbox, Patient Details (Name, Gender Male/Female, Date of Birth fields, Contact No, Age, Relationship dropdown), Card Address (House No, Street, State, District/Town, Block/ULB, Block, City/Town/Village, Pin code), Communication Address (with checkbox 'If Card and Communication Address are Same'), Caller Details (Hospital dropdown - CONTINENTAL HOSPITALS, Caller Name - John, Designation, Phone Number - 9999999), Diagnosis (Diagnosis Type - Congenital malformations, deformations and..., State Category Name - Chromosomal abnormalities not elsewhere classified, Category Name - Chromosomal and deletions from the autosomes, Sub Category Name - Other deletions from the autosomes, Disease Name - Other anomalies Miller-Dieker syndrome B, Disease Assessment Name - Other anomalies Miller-Dieker syndrome B), Provisional Approval Details (Category Name - GENERAL SURGERY, ICD Category, ICD Procedure - Incision, excision and exclusion of vessel/Edit, Insertion and Ligation of Various Veins), Provisional Approver Authority Details (Name of the Doctor, Designation, Phone Number, Date and Time of Intimation - 19/7/2018 15:17:31 PM), Remarks field, Note text about telephonic provisional approval, All fields marked with * are mandatory, Insurer dropdown, Submit and Reset buttons.

Click on OK button for registering the patient as shown in the screen shot.

Unique Telephonic id will be generated on clicking OK button after submitting the patient details through Telephone as shown in the screen shot.

Screenshot description: A success message is displayed: 'Patient details has been successfully captured with Telephonic ID: 5787' with an Ok button. The left sidebar shows: Patients (Telephonic Registration, Telephonic Registered Patients 6), Cases Search, and Preauth menus.

In Telephonic registered patient view, registered patients through telephone will be displayed as shown in the screen shot.

Screenshot description: The 'Telephonic Registered Patients' screen is shown. The left sidebar shows Telephonic Registration, Telephonic Registered Patients (count 7). The main panel shows a search form and a results table with columns: Telephonic ID, Aadhaar No, Patient Name, Registration Date, Caller Number, Caller Phone Number, District, Hospital, Disease Name, Doctor Name, Doctor Phone Number. Seven telephonic records are listed with various details including IDs 5447 through 5790, dates in July 2018, hospitals including Continental Hospitals and 7 Star Super Speciality Hospital, and various disease categories like Nuclear medicine, Pain in ankle, Chromosomal abnormalities, and Disorders of other endocrine glands.

Then it will go to Arogya Mitra's pool and he will register the corresponding patient which will be like direct registration process mentioned earlier.

Initial Diagnosis and Admission

Initial Diagnosis and Admission explains how an Inpatient and Outpatient Registration will be done. If any patient wants to take the services through this scheme he should register either as Inpatient or Outpatient through MEDCO (network hospital doctor).

10. In-Patient
11. Out-Patient

In-Patient Registration
Provisional diagnosis will be done at the Network Hospitals. Patient will be recommended for certain tests and based on the reports MEDCO (network hospital doctor) will convert the patient as Inpatient (patient will be admitted in the hospital and surgery needs to be done).

Out-Patient Registration
MEDCO (network hospital doctor) will convert the patient as Outpatient (If no Surgery is required), If no further treatment is required based on the examination of the reports with respect to certain tests after completion of provisional diagnosis.

1) In-Patient Registration
Medco should be able to register the Patient as In-Patient by diagnosing the patient.

Login to the operations worklist by giving Medco credentials and click on Login button to initiate in-patient cases as shown in the screen shot.

Screenshot description: The Ayushman Bharat TMS login screen is displayed with User Name: CHH0026 and Password hidden (with green checkmarks). Login and Reset buttons are shown.

Retrieve the registered patients by clicking the Registered Patient View as shown in the screen shot.

Screenshot description: The 'View Registered Patients' screen is shown. The left sidebar shows: Registered Patients View, OP Registered Cases, Cases Search, Preauth, Claims, Reports, MIS menus. The search form has fields: Patient No, Patient Name, Card Number, State (--select--), District (--select--), Scheme (--select--), Registered From Date, Registered To Date. Search and Reset buttons are present. Results show 'Displaying Records: 1-3 Total no of Records: 3'. The table has columns: S.No, Patient No, Patient Name, Health Card No, District, Gender, Age, Registration Date, Action. Three records listed: 1) 2793 - Priya - NHPS2344/01 - HYDERABAD - Female - 38 - 20/07/2018 11:26:01 AM; 2) 2818 - 6x66f - NHPS2356/01 - HYDERABAD - Male - 33 - 20/07/2018 14:34:02 PM; 3) 2833 - Sai - NHPS2364/01 - HYDERABAD - Male - 23 - 20/07/2018 14:46:23 PM. Action icons are present.

Click on IP for registering In-Patient Registration as shown below.

Screenshot description: The Patient Registration Form is displayed after clicking on a patient. Registration No: 3/14 is shown in the top right. The Registration Details section shows: Name - SARASVTI, Gender - Female, Contact No - blank, ID Number - 9GM0X8K, Registration Date -

13/09/2018 19:26:47 PM, Registered Hospital - City Hospital. Below is a Patient Type section with two radio buttons: General OP (currently selected) and IP (In-Patient).

Click on IP button and submit the Diagnosis, Therapy details and Action Type as Submit IP as shown in the screen shot.

Screenshot description: After clicking IP, a detailed form appears. Registration Details show: Name - Prabhav Hore, Gender - Female, Contact No - blank, ID Number - DKAIYGH, Registration Date - 13/09/2018 12:51:28 PM, Registered Hospital - City Hospital. Patient Type: IP is selected. A 'Print DTNS Form' button is visible. Tabs available: General Findngs, Personal History, Past and Family History, Symptoms, General Investigations. The Diagnosis section shows: Primary Diagnosis - 'Diseases of the eye and adnexa' selected. The Therapy section shows: Category Name - Cardiology, Procedure - ASD Device Closure, Treating Doctor - OTHERS, Doctor Name - Hema, Doctor Registration No - 23456, Qualification - Ms, Mobile No - 9990989990, Investigations - 2D ECHO report - TRPG. An Add Speciality button is present. A table row shows: Category Name - Cardiology, Procedure - Balloon Aorta Valvotomy (S120002 - 329), Treating Doctor - Sanjeev shinde, Action - X button. A Test table row shows: Test Name - 2D ECHO report, Attachment upload button, Action - X button. IP Number - 3293, Admission Type - Emergency, Proposed Surgery Date - 13-09-2018, Remarks - ok. Patient Diagnosed by - MEDCO, Doctor Name - City Hospital MEDCO. Medco Legal Case: Yes/No radio buttons (No selected). Action Type - Submit IP with Submit button.

Click on OK button for submitting IP patient details as shown in the screen shot.

Screenshot description: A confirmation dialog appears asking 'Do you want to Save?' with OK and Cancel buttons. The patient form is visible in background: Name - Sai, Gender - Male, Aadhaar No - XXXXXXXXX067, Registered Hospital - CONTINENTAL HOSPITALS, Registration Date - 20/07/2018 14:46:23 PM, Address - 54 sai nagar Amberpet HYDERABAD TELANGANA 787888. Patient Type: IP is selected. Print DTNS Form button is visible. Diagnosis section shows: Diagnosis Type, Factors influencing b..., Disease Name - Body mass index (BMI), Disease Assessment Name - Body mass index fields are visible. Therapy section is partially visible below.

Unique Case id will be generated on clicking OK button after registering the In-Patient as shown in the screen shot.

Screenshot description: A success message is displayed: 'IP Case Saved Successfully with Case ID: CASE/CON-RRV/NHPST3341/D' with an Ok button.

2) Out-Patient Registration

Medco should be able to register the Patient as Out-Patient if no further treatment is required for patient.

Hit the URL: http://stage.ehf.telangana.gov.in/TMS

Login to the operations worklist by giving Medco credentials and click on Login button to initiate out-patient cases as shown in the screen shot.

Screenshot description: The Ayushman Bharat TMS login screen is displayed with User Name: CHH0026 and Password hidden (with green checkmarks). Login and Reset buttons are shown.

Retrieve the registered patients by clicking the Registered Patient View as shown in the screen shot.

Screenshot description: The 'View Registered Patients' screen is shown with same layout as before. One record is shown: 1) 2793 - Priya - NHPS2344/01 - HYDERABAD - Female - 38 - 20/07/2018 11:26:01 AM.

Click on OP button and Submit Action Type as Submit OP for the out patients as shown in the screen shot.

Screenshot description: The Patient Registration Form is displayed after clicking a patient. Registration No: 3275 is shown. Registration Details show: Name - azYa, Gender - Male, ID Number - NDH2FJS, Registration Date - 13/09/2018 16:26:48 PM, Registered Hospital - City Hospital. Patient Type: General OP is selected (circled). Print DTNS Form button visible. Diagnosis section: Primary Diagnosis - 'Certain conditions originating in the perinatal period' selected. Prescription section shows: Main Group Name - ALIMENTARY TRACT AND METABOLU..., Therapeutic MainGroup Name - ANABOLIC AGENTS FOR SYSTEMIC..., Pharmacological SubGroup Name - ANABOLIC STEROIDS, Chemical SubGroup Name - ANDROSTAN DERIVATIVES, Chemical Substance Name - ANDROSTANOLONE, Route Type - Inhalation, Route - Aerosol, Strength Type - Gram(G), Strength - 10 gm, Dosage (per day) - OD, Medication Period (Days) - 30. An Add Drugs button is present. OP No - 123, Registration Date - 13/08/2018 16:29:56 PM, Patient Diagnosed by - MEDCO, Doctor Name - City Hospital MEDCO. Action Type: Submit OP with Submit button.

Click on OK button for submitting OP patient details as shown in the screen shot.

Screenshot description: A confirmation dialog 'Do you want to Register Patient Case?' appears with OK and Cancel buttons. The patient form is visible in background showing: Name - Priya, Gender - Female, Contact No - 7897897897, ID Number - NHPS2344/01, Aadhaar No - XXXXXXXX346, Registered Hospital - CONTINENTAL HOSPITALS, Registration Date - 20/07/2018 11:26:01 AM, Address - 5464 Priya Amberpet HYDERABAD TELANGANA 453453. Photo Not Available shown. Patient Type: General OP selected. Diagnosis fields visible at the bottom.

Unique Case id will be generated on clicking OK button after registering the Out-Patient as shown in the screen shot.

Screenshot description: A success message is displayed: 'OP Case Saved Successfully with Case ID: CASE/CON-RRV/NHPST3321/D' with an Ok button.

Preauthorization

3) Preauthorization Process Initiated by MEDCO
Medco should be able to initiate the Preauthorization by submit the inpatient details.

Login to the operations worklist by giving Medco credentials for initiating the Preauthorization process and retrieve the In-Patient registered patients by clicking the Pre-Auth Initiation as shown in the screen shot.

Screenshot description: The 'Preauth Cases For Initiation' list screen is displayed. Left sidebar shows Patients, Cases Search, Preauth (with sub-items: Preauth Initiation count 4, Preauth Updates, Cases for Surgery Updation count 6, Cases for Discharge Updation count 3), Claims, Reports, MIS menus. The search form has fields: Case Number, Card Number, Patient Name, Category (--Select--), ICD Category Name (--Select--), Procedure Name (--Select--), Registered From Date, Registered To Date. Search and Reset buttons. Results show 'Displaying Records: 1-5 Total no of Records: 5'. Table columns: S.No, Case No, Claim No, Patient Name, Card No, Case Status, Hospital Name, Registered Date, Case Form, PRF Form. Five cases listed: 1) CASE/CON-RRY/NHPST3121 - NA - Venkatesh - NHPS2381/01 - IP Case Registered - CONTINENTAL HOSPITALS - 19/07/2018 11:52:26 AM; 2) CASE/CON-RRY/naII3142 - NA - g4g4g4 - NHPS2340/01 - IP Case Registered; 3) CASE/CON-RRY/NHPST2981 - NA - Nagarjuna - NHPS2374/01 - IP Case Registered; 4) CASE/CON-RRY/NHPST3291 - NA - Aparna - NHPS2347/01 - IP Case Registered; 5) CASE/CON-RRY/NHPST3341 - NA - Sai - NHPS2364/01 - IP Case Registered.

Click on Submit button by providing the Plan of Treatment, Comorbid Conditions, Admission Details and Pre-Auth Attachments as shown in the screen shot.

Submit all mandatory attachments for Pre-Auth tab as shown in the screen shot.

Screenshot description: The Patient Details Case view is shown for Case No: CASE/CON-RRV/NHPST3541. Top section shows: Name - blank, Aadhaar No - 785788880787, Relation with Family Head - Self, Card No - NHPS2364/01, IP No - blank, Case Status - IP Case Registered, IP Registered Date - 2018-07-20 16:55:11.0, Hospital Name - CONTINENTAL HOSPITALS, Contact No - 867867686, Slab Type - NA, Address - 54 sai nagar Amberpet AMBERPET, HYDERABAD. Tabs available: IP Registration Details, Past History, Clinical Notes, Preauthorization, Attachments, Case Sheet. The 'Attachments' tab is active showing the Pre-Authorization attachments upload panel. A set of attachment rows are listed with View links and Upload buttons for each: Consent Documents (Content Documents link and Upload), DTRS (DTRS link and Upload), Health Card (Health Card link and Upload), On bed photo (On bed photo link and Upload), Preauthorisation Clinical Photos (Preauthorisation Clinical Photos link and Upload), Signed and Authenticated Copy of Preauthorisation Request Form (PRF)* - mandatory field (Upload), Support Documents (Upload), Webex Recordings (Upload). A 'Download as one PDF' button and a note 'File size should not exceed 200 kb' are shown. A Next button is at the bottom right.

After initiating the Pre-Authorization, message will be generated as shown in the screen shot.

Screenshot description: The Case view now shows the Preauthorization tab. A popup message reads 'Preauthorization has been successfully initiated by MEDCO.' with an OK button. The hospital name CONTINENTAL HOSPITALS is visible on the left and another hospital name partially visible on the right. The Diagnosis and Treatment section below the popup shows: Diagnosis Type - Factors influencing health status and contact with health services. Main Category Name - Factors influencing health status and contact with health services. Category Name - Body mass index (BMI) Kilograms per metres squared. Sub Category Name - Body mass index (BMI) 40 or greater adult. Disease Name - Body mass index (BMI) 70 or greater adult. Disease Assessment Name - Body mass index (BMI) 70 or greater adult. Treatment Protocol section is partially visible at the bottom with column headers: Category Name, ICD Category Name, Procedure Name, Units, Special Investigations, Remarks, Treating Doctor Name, Action.

7) Preauthorization Updation by MEDCO

Medco should be able to update the required information to PPD for the cases kept for pending by PPD as shown below.

Screenshot description: The Patient Details case view for Case No: CASE/HSD5P17/S178 is displayed. Patient details at top: Name - pahlam raju, Card No - PG81LMXOK, IP No - blank, IP Registered Date - 2018-08-13 16:43:14.0, Contact No - blank, Case Status - PPD-Insurer kept pending, Hospital Name - City Hospital. Tabs: IP Registration Details, Past History, Clinical Notes, Preauthorization (active), Attachments, Case Sheet, Fraud/CR. The NWH Details section shows: Name - City Hospital, Address - City Hospital Kotra Road Raigarh 7965546910. The Diagnosis and Treatment section: Primary Diagnosis - Certain conditions originating in the perinatal period. Treatment Protocol table shows two procedures: Category Name - Cardiology(11), Procedure - Balloon Aortic Valvotomy(S120002-329), Units - NA, Special Investigations - 2D ECHO report, Remarks - NA, Treating Doctor Name - ASDF; and Category Name - Cardiology(11), Procedure - ASD Device Closure(S120014-341), Special Investigations - 2D ECHO report - TRPG, Remarks - asdf, Treating Doctor - asdf. Plan of Treatment (Therapy) section: Category Name (--Select--), Procedure Name (--Select--), Treating Doctor (----Select----), Treating Doctor Remarks field, Add Surgical Details button. Admission Details section: Admission Type - Planned/Emergency radio buttons (Emergency selected), Admission Date - 13-06-2018, Procedure Consent - Yes/No (Yes selected), Medical or Cardiology Clearance - Yes/No (No selected), Blood Transfusion - Yes/No (No selected). Total Package Amount Admissible Under the Scheme: Rs.27500. Remarks - na. Work Flow table shows three entries: 1) 13/08/2018 12:37:50 - City Hospital MEDCO(MEDCO) - NA - Medco Preauth initiated - 27500; 2) 13/08/2018 12:41:47 - Chattisgarh PPD-INS(PPD-INSURER) - NA - PPD-Insurer kept pending - 27500; 3) 13/08/2018 16:43:14 - City Hospital MEDCO(MEDCO) - NA - IP Case Registered - 25000. Action Type: Update with Submit and Print PRF Form buttons.

Click on OK button for updating the required information as shown in the screen shot.

After Clicking OK, message will be generated as shown in the screen shot.

Screenshot description: A confirmation dialog appears asking 'Do you want to Update the Case?' with OK and Cancel buttons. The Case status shown is 'PPD-Insurer kept pending'. Case No: CASE/HSD5P17/S178 is visible in the top right.

Screenshot description: After clicking OK, a success popup message reads: 'Preauthorization pending case has been updated by MEDCO.' with an OK button.

8) Preauthorization Process Verified by MITRA

Note: For some states, if they are having Arogya Mitra, then it will go to Arogya Mitra pool. For the other states, after Pre-auth initiation, request will go to Panel doctor directly.

Arogya Mitra should be able to verify the Preauthorization process initiated by Medco as shown in the screen shot.

Screenshot description: The Arogya Mitra login is shown (username ending in MITRA visible). The Patient Case view for CASE/CON-RRV/NHPST3341 is displayed. Top left shows: Hospital Name - CONTINENTAL HOSPITALS, Contact No - 8878678686, Slab Type - Semi Private Ward, Address - 54 sai nagar Amberpet AMBERPET, HYDERABAD. Tabs visible: IP Registration Details, Past History, Clinical Notes, Preauthorization (active), Attachments, Case Sheet. NWH Details: Name - CONTINENTAL HOSPITALS, Address - PLOT NO3, ROAD NO 2, NANAKRAMAGOUDA, GACHIBOWLI, SERILINGAMPALLY, HYDERABAD, 9441991148. Diagnosis and Treatment section: Diagnosis Type - Factors influencing health status and contact with health services. Main Category Name - Factors influencing health status and contact with health services. Category Name - Body mass index (BMI) Kilograms per metres squared. Sub Category Name - Body mass index (BMI) 40 or greater adult. Disease Name - Body mass index (BMI) 70 or greater adult. Disease Assessment Name - Body mass index (BMI) 70 or greater adult. Treatment Protocol table: Category Name - ENDOCRINOLOGY(192), ICD Category Name - Disorders of other endocrine glands(405), Procedure Name - Hormonal therapy for Pituitary - Acromegaly(292), Units - NA, Special Investigations - Clinical Photograph, Remarks - NA, Treating Doctor Name - R. BHARATHI. Comorbid Conditions - No comorbids Found. Admission Details section partially visible showing Admission Type field.

Unique Claim number will be generated after forwarding the case by the Arogya Mitra as shown in the screen shot.

Screenshot description: The Case view now shows a popup message: 'Case has been sent for preauthorization and Claim No is TRUST/HYD/2018/50713-098/1' with an OK button. Patient details visible: Aadhaar No - 734788884767, Case Status - Medco Preauth Initiated, IP No - NA, IP Registered Date - 2018-07-20 16:55:11.0, Hospital Name - CONTINENTAL HOSPITALS, Contact No - 8878678686, Slab Type - Semi Private Ward, Address - 54 sai nagar Amberpet AMBERPET, HYDERABAD. Tabs: IP Registration Details, Past History, Clinical Notes, Preauthorization, Attachments, Case Sheet. NWH Details visible, Diagnosis and Treatment section partially visible at bottom showing ENDOCRINOLOGY treatment row.

Patient Management and Discharge

Patient Management is giving treatment to the patient who want to avail hospital services, he has to be admit in the hospital either for the Surgery or for Medical. After completion of the treatment, process will be ended by discharging him.

12. Patient Management
13. Patient Discharge

Patient Management
After Preauthorization, MEDCO (Network Hospital Doctor) verifies whether the beneficiary can go for Surgery or Therapy. Based on the procedure, he has to submit by providing treating doctor details, Daily Clinical Notes like Medicines, B.P and some attachments like post-surgery photos. After this Case Status will be changed as Pre-Auth to Surgery update.

Patient Discharge
After Surgery update, MEDCO (Network Hospital Doctor) will provide Discharge Summary and attachments like Post Surgery/Therapy Special Investigation, patient photo, Treating doctor and Arogya Mitra photo's, Satisfaction Letter and Transport Acknowledgement Letter (As Transport facility will be provided freely) at the time of Discharge. Hospital has to treat freely up to 10 days after discharge, if any complications came for the patient.

9) Patient Management
Medco should be able to view Pre-Authorization Approved cases in the 'Cases for Surgery Updation' tab as shown in the screen shot.

Screenshot description: The 'Cases for Surgery Updation' list screen is shown. The left sidebar shows Preauth Initiation count 4, Preauth Updation count 10, Cases for Surgery Updation count 7 (active), Cases for Discharge Updation count 3. Search form fields: Case Number, Card Number, Patient Name, Category (--Select--), ICD Category Name (--Select--), Procedure Name (--Select--), Registered From Date, Registered To Date. Search and Reset buttons. Results show 'Displaying Records: 1-7 Total no of Records: 7'. Table columns: S.No, Case No, Claim No, Patient Name, Card No, Case Status, Hospital Name, Registered Date, Case Form, PRF Form. Seven cases listed: 1) CASE/CON-RRV/NHPST2821 - TRUST/HYD/2018/50713-1378/1 - sindhi - NHPS2348/01 - PPD Approve; 2) CASE/CON-RRV/naII2881 - NA - Rajini karthi - NA - Procedure Auto Approved; 3) CASE/CON-RRV/NHPST2981 - TRUST/HYD/2018/50713-1428/1 - Ram charan - NHPS2382/01 - PPD Approve; 4) CASE/CON-RRV/NHPST3291 - TRUST/HYD/2018/50713-1498/1 - tester male - NHPS2393/01 - PPD Approve; 5) CASE/CON-RRV/NHPST3381 - TRUST/HYD/2018/50713-1558/1 - Ram charan - NHPS2382/01 - PPD Approve; 6) CASE/CON-RRV/naII3394 - TRUST/HYD/2018/50713-1778/1 - diff - NHPS2383/01 - PPD Approve; 7) CASE/CON-RRV/NHPST3341 - TRUST/HYD/2018/50713-1498/1 - Sai - NHPS2364/01 - PPD Approve. All cases at CONTINENTAL HOSPITALS.

Click on 'submit Surgery Details' button by providing the details like Surgeon Details, Anaesthetist Details, Assistant Surgeon Details, Procedure Details, Surgery Date and Mandatory Attachments in Surgery/Discharge Update as shown in the screen shot.

Click on OK button for updating the surgery details as shown in the screen shot.

Screenshot description: The Surgery/Discharge tab is shown for Case No: CASE/HSD5P17/S176. Patient: KHOMEI SINGH, Card No: PFJSV587E, IP No: blank, IP Registered Date: 2018-08-13 16:41:33.0, Case Status: PPD Approve, Hospital Name: City Hospital. Tabs visible including Surgery/Discharge (active). A success popup shows

'Treatment/Surgery Saved Successfully' with OK button. Below the popup, the Surgery/Discharge fields show: Sutures/Ligatures - 10, Specimen Removed - Yes/No (No selected), Drainage Count - 10, Blood Loss - 10, Post Operative Instructions - 10, Patient Condition - good, Complications If Any - Yes/No (No selected). Treatment/Surgery Date section: Treatment/Surgery Date - 13-08-2018, Surgery Start Time - '--' with time field, Surgery End Time - '--' with time field, Death Date. A calendar icon is shown. Save Surgery Details and Submit Surgery Details buttons are at the bottom.

'Treatment/Surgery Updated' message will be generated on clicking OK button as shown in the screen shot.

10) Patient Discharge

Medco should be able to view Surgery Updated cases in the 'Cases for Discharge Updation' tab as shown in the screen shot.

Screenshot description: The Surgery Updation confirmation step is shown. A confirmation dialog asks 'Do you want to Submit?' with OK and Cancel buttons. The case for CASE/HSD5P17/S176 (KHOMEI SINGH) is visible in the background with PPD Approve status.

Screenshot description: The 'Cases for Discharge Updation' list screen is shown. Left sidebar shows Cases for Discharge Updation count 4 (active). Search form visible. Results show 'Displaying Records: 1-4 Total no of Records: 4'. Table columns: S.No, Case No, Claim No, Patient Name, Card No, Case Status, Hospital Name, Registered Date, Case Form, PRF Form. Four cases: 1) CASE/CON-RRV/NHPST3081 - TRUST/HYD/2018/50713-1378/1 - fxdfxf - NHPS2397/01 - Surgery date updated by Medco; 2) CASE/CON-RRV/naII3101 - NA - Bala Krishna - NHPS2398/01 - Surgery date updated by Medco; 3) CASE/CON-RRV/NHPST3122 - NA - Sorain - NHPS2398/01 - Surgery date updated by Medco; 4) CASE/CON-RRV/NHPST3341 - TRUST/HYD/2018/50713-998/1 - Sai - NHPS2364/01 - Surgery date updated by Medco. All at CONTINENTAL HOSPITALS.

Click on 'Discharge' by providing the details like Surgeon Details, Anaesthetist Details, Assistant Surgeon Details, Procedure Details, Surgery Date and Mandatory Attachments in Surgery/Discharge tab as shown in the screen shot.

Screenshot description: The Surgery/Discharge tab is displayed for Case No: CASE/HSD5P17/S176. Patient: KHOMEI SINGH, Card No: PFJSV587E, IP No: blank, IP Registered Date: 2018-08-13 16:41:33.0, Case Status: Surgery date updated by Medco, Hospital Name: City Hospital. The form sections include: Anaesthetist Name (--Select--), Regn No, Contact No, Anaesthesia Type (--Select--). Assistant Surgeon Details: Doctor Type - Others, Name - Aishwarya, Regn No - 745, Qualification - MD, Contact No - 9999999999, Paramedic Name - Teja, Nurse Name - Nimma, Expected Hospital Stay (days) - 3. Procedure Details: Incision Type - NA, OP Photos/WebEx Taken - Yes/No (No), Video Recording Done - Yes/No (No), Swab Count Instruments Count - 10, Sutures/Ligatures - 10, Specimen Removed - Yes/No (No), Drainage Count - 10, Blood Loss - 10, Post Operative Instructions - 10, Patient Condition - good, Complications If Any - Yes/No (No selected). Treatment/Surgery Date: Treatment/Surgery Date - 13/08/2018, Surgery Start Time, Surgery End Time, Death Date. Discharge Summary section: Treatment Given - Yes, Operative Findings - NA, Post Operative Period - NA, Post Surgery/Therapy Special Investigations Given - NA, Status at the time of

Discharge - NA, Review - NA, Advice - NA, Discharge/Death radio buttons (Discharge selected). Discharge section: Discharge Date - 13/08/2018, Next Follow Up Date - 23/08/2018, Consult at Block Name - NA, Floor - 3, Room No - 304. Buttons: Save, Generate Patient Satisfaction Letter, Print Discharge Summary Form. Note: 'Once the Discharge date/Death Date is updated in the discharge summary, it can not be modified at any point of time.'

Attachments are given in the attachments tab as shown below.
