UHC	Universal Health Coverage

1. Introduction

Ayushman Bharat, a flagship scheme of Government of India was launched as recommended by the National Health Policy 2017, to achieve the vision of Universal Health Coverage (UHC). Ayushman Bharat is an attempt to move from sectoral and segmented approach of health service delivery to a comprehensive need-based health care service. Ayushman Bharat aims to undertake path breaking interventions to holistically address health (covering prevention, promotion, and ambulatory care), at primary, secondary and tertiary level.

PM-JAY2.0 is a step towards this, it will replace the existing PM-JAY1.0. NHA has initiated PM-JAY2.0 to offer a single integrated platform which is robust, scalable and sustainable in the long term and can keep pace with the changing end user, business and technology requirements. The new system will provide an enriching experience to all stakeholders by improving efficiency in delivery of all services and enhance transparency.

2. Purpose

The Ayushman App ensures correct source of Potential Beneficiaries who can perform their e-KYC and ensure enrolment into PMJAY Scheme to get their Ayushman cards and avail

subsequent health benefits from the scheme. This App also allows beneficiaries to download card, Linking of Aadhaar to already enrolled cards for seeding Aadhaar.

3. Scope of the Application

The Ayushman App is designed for Beneficiaries to enrol for Ayushman Card and for Operator to make Ayushman card for beneficiaries post e-KYC. The potential beneficiary for auto approval of card request based on match threshold score and in case of non-auto approval, the request forwards to respective authorities for further action and decision.

4. Features of Ayushman App

- Authentication of potential beneficiary
- e-KYC of beneficiary
- e-KYC of un-verified Operator
- Link Aadhaar for already enrolled beneficiary without Aadhaar
- Addition of new Family Member for already enrolled families
- Auto Approval of enrolment request based on matching score
- Download card if auto approved or once approved by ISA or SHA
- Card delivery through operator

5. Ayushman App Roles

Role	Description & Responsibilities
Beneficiary	Citizen of India, who is potential / enrolled beneficiary to avail the benefits under PMJAY Scheme. Also, potential beneficiary performs following operations: Search beneficiary | e-KYC | Download Ayushman card PDF, share card on different App
Operator	Operators are preauthorized users of Ayushman App, authorized by State and are responsible for: Search beneficiary | e-KYC | Link Aadhaar | Add family member | Download Ayushman card PDF, share card on different App | Card delivery process execution post approval of enrolment process
Agency Operator	Agency operators are preauthorized users of Ayushman App, authorized by State and are responsible for: Search beneficiary | Card delivery process execution post approval of enrolment process

6. Ayushman App Workflow

The Ayushman App workflow describes the end-to-end process for beneficiary identification, authentication, e-KYC, and card download. The workflow involves the following steps:

1. BENEFICIARY - Search via State, Scheme, District. Search can be done by: Aadhaar Number, Family ID, Name, Urban/Rural or State ID based on State selected in dropdown list.
2. AUTHENTICATION - After the search is performed, the beneficiary is authenticated.
3. e-KYC of beneficiaries / Family member - This can be done by beneficiaries and Operator also. The Operator/Beneficiary performs e-KYC of Self/Family Member.
4. Auto approval of Card - Auto approval of Card is based on matching score (Source details vs e-KYC details).
5. DOWNLOAD CARD - Once approved, the card can be downloaded.

7. Login

Ayushman App allows Beneficiary and Operator to Login. This application provides interface where user can choose applicable option to access.

- Beneficiary
- Operator

Beneficiary: A user can login using with active mobile number. Upon verification of the mobile number, the user will have a provision to authenticate using mobile OTP only. The user will have to enter an OTP followed by captcha. Upon which the login button gets enabled, as shown in Beneficiary login page screenshot below.

Operator: As a PMAM user, the Operator must have login details to access this App. If IDs already created, then PMAM user can directly Sign in the App as shown in Operator login page screenshot. And if not, then user will have to Sign-up to create a login, the user needs to get registered in UMP portal with required details. Once the login request is approved in User Management Portal, the user can be able to access the Ayushman App.

Login as PMAM using registered mobile number/user ID. Upon verification of the mobile number/user ID, the user will have a provision to authenticate using password/mobile OTP/Aadhaar OTP/Aadhaar fingerprint. If the authentication mode selected as 'password', the user will have a provision to enter his password followed by captcha. Upon which the login button gets enabled as shown in login page (PMAM) screenshot.

Back side shows 'Swasthya ka vardan, Ayushman' (Health Blessing, Ayushman) with four bullet points: 1) This Ayushman card will help you in availing benefits of free hospitalization cover of Rs. 5 Lakhs per annum to you and your family collectively at any empanelled hospital across India under Ayushman Bharat PM-JAY. 2) You are not required to pay/deposit any money at the AB-PM-JAY empanelled hospital across India under Ayushman Bharat PM-JAY. 3) For any help, to report a grievance or to know more about AB-PM-JAY empanelled hospitals near you, please reach out to us. 4) The entitlement of treatment through this card is subject to verification by SHA-MP. The card footer says 'Please download the App' with Google Play logo and 'Please contact 14555/1800 233 2085 or log on to / visit the site https://pmjay.gov.in'.]

*Disclaimer: The personal details are blurred to avoid violation of privacy.

24. Logged in Operator can view the Beneficiary and Beneficiary's family member details and perform Authentication for them using one of the four methods as shown in screen below:
    e. Authentication can be done via following 4 methods:
        i. Aadhaar OTP
        ii. Finger Print
        iii. IRIS Scan
        iv. Face Auth

25. Post Authentication Operator can perform the following actions:
    f. e-KYC using four e-KYC methods in case of Potential Beneficiary, whose card status is identified

g. Link Aadhaar in case of Aadhaar not linked with approved Beneficiary or Family Member, whose card status is unidentified
h. Add Family member in case of new member to be added to family.

26. Once e-KYC is completed successfully using either of the options Aadhaar OTP, Finger Print, IRIS Scan or Face Auth, Beneficiary will get following options:
    i. e-KYC: user can proceed to download card if Auto Approved (refer screenshot-1) or await approval if match score below threshold for approval by competent authorities. And a request will be submitted with reference ID (refer screenshot-2).

[IMAGE - Screenshot 1: Card is Auto-Approved: Shows the e-KYC screen with District 'ANANTAPUR' and a large green checkmark success icon with text: 'e-KYC is completed. Please download the Ayushmann card after sometime.' with an Okay button. Label indicates 'Card download After sometime'.]

[IMAGE - Screenshot 2: Non Auto-Approved: Shows an outcome screen with a Search Beneficiary section showing PMJAY ID field with sample ID number and a Search button. Below a circular orange icon represents processing/pending status. Text reads: 'E-KYC is completed and your data is sent for approval. [reference number] is your reference number. to check your status sent for processing.' with an OK button.]

*Disclaimer: The personal details are blurred to avoid violation of privacy.

j. Link Aadhaar - card status will remain approved and Aadhaar details will be updated, whose card was generated earlier without Aadhaar.

k. Add Family Member - eKYC of the newly added member would be shown as Pending or Approved based on match score crosses threshold or not. If Auto Approved, Operator can download the PMJAY Ayushman Card. If not Auto Approved, Beneficiary has to await approval by competent authorities. And a request will be submit with reference ID (refer screenshot-3).

[IMAGE - Screenshot 3: Card is Auto-Approved (Add Family Member): Shows the Add Family Member screen with District field 'ANANTAPUR' and Rural or Urban field. A circular orange processing icon is shown with text: 'The request for adding new member has been sent for processing and reference id is [reference id].' with an OKAY button.]

*Disclaimer: The personal details are blurred to avoid violation of privacy.

7.5. Download Card as an Operator

All approved card for beneficiary's family can be downloaded multiple times by the Beneficiaries or Operator after authentication and shared as PDF / Link on another App.

After log-in from Beneficiaries or Operator, Search with Family ID/Aadhaar/name and Rural/Urban. Go to Download Card.

[IMAGE - Screenshot 1: Card Downloaded - Search: Shows the Download Card screen. Tabs at the top show: Family Member, Download Card (selected), Card De[livery]. A Search Beneficiary

section shows Family ID field with a sample number (labeled 'Enter Family ID') and a Search button (labeled 'Select Search').]*

[IMAGE - Screenshot 2: Select beneficiary and complete Authentication: Shows the Download Card screen after search. Displays beneficiary details: Source Type (Approved), Aadhaar/Virtual ID, Family ID, Mobile Number, Member ID, Address. Below is an Authentication section with Authentication By field showing a name in a dropdown, and options: Aadhaar OTP, Finger Print, IRIS Scan, Face Auth.]*

[IMAGE - Screenshot 3: Successfully Authenticated: Shows the Download Card screen with the same beneficiary details (Source Type: Approved, Aadhaar/Virtual ID, Family ID, Mobile Number, Member ID, Address). Authentication section shows 'Authenticated by [name] for downloading card.' (labeled 'After Successful Authentication').
