CHATBOT FALLBACK RESPONSE HANDLER

External Prompts & Out-of-Scope Queries — Standard Response Document

1. PURPOSE OF THIS DOCUMENT

This document defines standard responses for all prompts that fall OUTSIDE the chatbot's primary knowledge base (internal PDFs / domain-specific content). When a user sends a greeting, casual message, out-of-scope question, or irrelevant request, the chatbot should refer to this document to provide a polite, consistent, and helpful reply — then gently redirect the user back to the chatbot's main purpose.

Important: This document covers ONLY external/fallback scenarios. For domain-specific answers, the chatbot should use its internal PDFs and knowledge base.
